Canon Medical Systems strengthens partnership with Arcoma by entering into a reseller agreement

Canon Medical Systems targets diagnostic X-ray segment with digital x-ray systems Aceso and Aceso+

On April 16 2018, [Canon Medical Systems Europe B.V.](#) has signed a reseller agreement with the Swedish medical device company Arcoma, allowing Canon Medical Systems to sell the high-end digital X-ray systems 'Aceso' and 'Aceso+' in Europe.

[Arcoma](#) and Canon Medical Systems already had a strong partnership in place, enabling Arcoma to deliver completely integrated systems to its clients using Canon Medical Systems' imaging software and detectors. The reseller agreement marks a new step in the partnership. René Degros, European Sales Director at CMSE: "We were looking to strengthen our product portfolio in the diagnostic X-ray segment. The market is requesting robust and high-end auto-positioning systems. With the Aceso and Aceso+ we will definitely integrate very reliable clinical solutions in our portfolio, allowing our customers to improve their workflow and patient outcome."

Aceso and Aceso+

Both Aceso and Aceso+ are high-end Arcoma solutions using Canon Medical Systems imaging technology.

The Aceso DR System is a high quality, yet cost-effective DR imaging solution. Featuring a variety of imaging platforms, including a new line up of high-end flat panel detectors, the Aceso provides a solution to a wide variety of clinical needs. Featuring Arcoma's Smart Space concept the system can be installed in both the tallest and shortest of rooms.

The Aceso+ represents the optimum combination of the 4th generation auto-positioning technology with ergonomic design, resulting in a digital radiographic system that creates an efficient workflow and maximizes patient throughput. Featuring advanced applications like auto-stitching and auto detector tracking of both table and vertical stand, Aceso+ is suitable for the most diverse imaging needs.

"We are very pleased to extend our collaboration with Canon Medical Systems. Canon's choice to include Arcoma systems in their portfolio is really encouraging. It is an acknowledgement of our technology and very reliable products. With this agreement Arcoma get a significantly improved market presence in Central and Southern Europe. In Northern Europe where Arcoma and Canon already have strong and very competent business partners, this collaboration further improve presence and enable participation in multimodality deals that require a wider product portfolio" says Arcoma CEO Jesper Söderqvist.
